

Website Design for Natural Fertilizer Solutions Selected for Publication in 'The Big Book of Green Design'

Natural Fertilizer Solutions contracted with Graphic Design to develop an aesthetically pleasing budget sensitive website to promote the services of this established agri-business.

The website created by Graphic Design provides an aesthetically pleasing design. Design elements relate well to the client's business.

CASE STUDY

CLIENT

Natural Fertilizer Services
Woodbine, Iowa

Natural Fertilizer Services manages the amount, source, placement, form and timing of a sound nutrient management plan.

www.naturalfertilizerservices.com

AUDIENCE

Business to Consumer

INDUSTRY

Agri-business Services

CHALLENGE

Create a website for this service business incorporating elements specific to client's industry. The website needed to be designed to fit within the client's specified budget.

MATERIALS PRODUCED

- ◆ Website Design
- ◆ SEO
